

Suzanne Prescott I wd like to comment as a member of the viewing' public.' The last person to comment at the hearing was concerned about changing the status of the special proposed absentee ballots to 'provisional.' I would not like to see this rule lead to a major uptick in provisional ballots cast by the blind. Is there a way to protect the ballots that are changed by this rule?

Thank you SoS, Maggie Toulouse Oliver, and staff for providing this video of proposed changes to absentee ballot procedures.
